AMENDMENT

SIR:

In response to the Office Action of January 15, 2003, kindly amend the
above-captioned application as follows:

IN THE CLAIMS:

Please add the following new claim:

--29. (New) A device, comprising:

at least one measuring system configured to detect at least one measured
quantity of an electric drive;

at least one controller configured to receive at least the measured quantity
detected by the measuring system and to generate at least one manipulated
variable to control the drive; and

at least one signal processor configured to detect errors in the measuring
system.--.
